SURVEY COMPLETION DATE: 07-19-2019

Many years of research conducted by The Gallup Organization suggest that the most effective people are those who understand their strengths and behaviors. These people are best able to develop strategies to meet and exceed the demands of their daily lives, their careers, and their families.

A review of the knowledge and skills you have acquired can provide a basic sense of your abilities, but an awareness and understanding of your natural talents will provide true insight into the core reasons behind your consistent successes.

Your Signature Themes report presents your five most dominant themes of talent, in the rank order revealed by your responses to CliftonStrengths. Of the 34 themes measured, these are your "top five."

Your Signature Themes are very important in maximizing the talents that lead to your successes. By focusing on your Signature Themes, separately and in combination, you can identify your talents, build them into strengths, and enjoy personal and career success through consistent, near-perfect performance.

Analytical

Your Analytical theme challenges other people: "Prove it. Show me why what you are claiming is true." In the face of this kind of questioning some will find that their brilliant theories wither and die. For you, this is precisely the point. You do not necessarily want to destroy other people's ideas, but you do insist that their theories be sound. You see yourself as objective and dispassionate. You like data because they are value free. They have no agenda. Armed with these data, you search for patterns and connections. You want to understand how certain patterns affect one another. How do they combine? What is their outcome? Does this outcome fit with the theory being offered or the situation being confronted? These are your questions. You peel the layers back until, gradually, the root cause or causes are revealed. Others see you as logical and rigorous. Over time they will come to you in order to expose someone's "wishful thinking" or "clumsy thinking" to your refining mind. It is hoped that your analysis is never delivered too harshly. Otherwise, others may avoid you when that "wishful thinking" is their own.

Context

You look back. You look back because that is where the answers lie. You look back to understand the

present. From your vantage point the present is unstable, a confusing clamor of competing voices. It is only by casting your mind back to an earlier time, a time when the plans were being drawn up, that the present regains its stability. The earlier time was a simpler time. It was a time of blueprints. As you look back, you begin to see these blueprints emerge. You realize what the initial intentions were. These blueprints or intentions have since become so embellished that they are almost unrecognizable, but now this Context theme reveals them again. This understanding brings you confidence. No longer disoriented, you make better decisions because you sense the underlying structure. You become a better partner because you understand how your colleagues came to be who they are. And counterintuitively you become wiser about the future because you saw its seeds being sown in the past. Faced with new people and new situations, it will take you a little time to orient yourself, but you must give yourself this time. You must discipline yourself to ask the questions and allow the blueprints to emerge because no matter what the situation, if you haven't seen the blueprints, you will have less confidence in your decisions.

Individualization

Your Individualization theme leads you to be intrigued by the unique qualities of each person. You are impatient with generalizations or “types” because you don't want to obscure what is special and distinct about each person. Instead, you focus on the differences between individuals. You instinctively observe each person's style, each person's motivation, how each thinks, and how each builds relationships. You hear the one-of-a-kind stories in each person's life. This theme explains why you pick your friends just the right birthday gift, why you know that one person prefers praise in public and another detests it, and why you tailor your teaching style to accommodate one person's need to be shown and another's desire to “figure it out as I go.” Because you are such a keen observer of other people's strengths, you can draw out the best in each person. This Individualization theme also helps you build productive teams. While some search around for the perfect team “structure” or “process,” you know instinctively that the secret to great teams is casting by individual strengths so that everyone can do a lot of what they do well.

Achiever

Your Achiever theme helps explain your drive. Achiever describes a constant need for achievement. You feel as if every day starts at zero. By the end of the day you must achieve something tangible in order to feel good about yourself. And by “every day” you mean every single day—workdays, weekends, vacations. No matter how much you may feel you deserve a day of rest, if the day passes without some form of achievement, no matter how small, you will feel dissatisfied. You have an internal fire burning inside you. It pushes you to do more, to achieve more. After each accomplishment is reached, the fire dwindles for a moment, but very soon it rekindles itself, forcing you toward the next accomplishment. Your relentless need for achievement might not be logical. It

might not even be focused. But it will always be with you. As an Achiever you must learn to live with this whisper of discontent. It does have its benefits. It brings you the energy you need to work long hours without burning out. It is the jolt you can always count on to get you started on new tasks, new challenges. It is the power supply that causes you to set the pace and define the levels of productivity for your work group. It is the theme that keeps you moving.

Developer

You see the potential in others. Very often, in fact, potential is all you see. In your view no individual is fully formed. On the contrary, each individual is a work in progress, alive with possibilities. And you are drawn toward people for this very reason. When you interact with others, your goal is to help them experience success. You look for ways to challenge them. You devise interesting experiences that can stretch them and help them grow. And all the while you are on the lookout for the signs of growth—a new behavior learned or modified, a slight improvement in a skill, a glimpse of excellence or of “flow” where previously there were only halting steps. For you these small increments—invisible to some—are clear signs of potential being realized. These signs of growth in others are your fuel. They bring you strength and satisfaction. Over time many will seek you out for help and encouragement because on some level they know that your helpfulness is both genuine and fulfilling to you.
